COMPARE OTHER DECK BOARDS TO VEKAdeck™ PRO & SEE FOR YOURSELF

No Cellulosic Materials- VEKAdeck™ PRO does not contain organic or cellulosic ingredients which may allow mold growth or degradation. VEKAdeck™ PRO contains pure PVC and non-organic fillers and stabilizers.

Limited Lifetime Warranty- VEKAdeck™ PRO is guaranteed not to rot, chip, peel, blister or corrode. See your local VEKAdeck™ PRO sales representative for complete details.

Environmentally Friendly- PVC is recyclable and saves our precious forest resources. Because VEKAdeck™ PRO is UV and water resistant, chemical treatments are not necessary.

Slip Resistant- Attractive, embossed woodgrain, anti-skid surface makes VEKAdeck™ PRO slip resistant, wet or dry.

Low Maintenance- VEKAdeck™ PRO never needs painting, staining or sealing and can be cleaned with most common household products.

Easy to Work- VEKAdeck™ PRO works as easily as wood using standard hand and power tools.

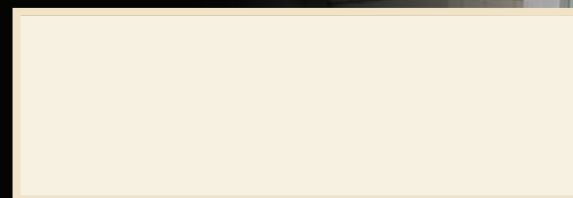

Water Resistant- PVC will not absorb moisture making VEKAdeck™ PRO ideal for high humidity or marine applications.

Color Retention- 100% PVC along with UV and color stabilizers, ensure that VEKAdeck™ PRO is fade resistant under normal weather conditions*.

Fascia Board- VEKAdeck™ PRO Fascia Board is made of the same high quality PVC and is available in 12" widths.

*Please see the complete VEKAdeck™ PRO warranty for descriptions of normal weathering conditions.

Actual color may vary from this printed literature. Please see your local VEKAdeck™ representative for an actual color sample.

ADVANCED CELLULAR PVC TECHNOLOGY
VEKAdeck™ PRO

THE ORIGINAL ...
JUST GOT BETTER!

NEW COLOR FOR 2010!

VEKAdeck™ PRO

ADVANCED CELLULAR PVC TECHNOLOGY

Decknology™

CCRR-0137 Compliant

VEKAdeck™, the original reinforced, cellular PVC deck board from VEKA now introduces VEKAdeck™ PRO, our second generation professional deck board. VEKAdeck™ PRO is a superior alternative to wood and wood fiber/plastic composite decking materials. VEKAdeck™ PRO's cellular

PVC extrusion process gives it dimensional stability and superior impact resistance.

Our patent pending PVC formulation is lighter than wood or composite materials but is highly impact resistant. VEKAdeck™ PRO works similar to other decking products, requiring no special tools or fasteners.

VEKAdeck™ PRO provides a high return on your investment. Performance characteristics such as long life, high durability and low maintenance are keys to getting the most out of your outdoor living space.

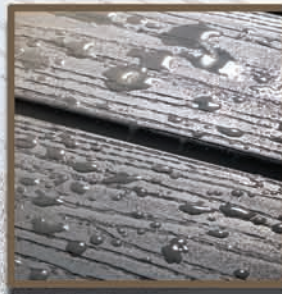

VEKAdeck™ PRO is environmentally friendly, and is ideal for residential and commercial deck or dock applications.

VEKAdeck™ PRO can be worked with traditional tools and accepts standard deck screws, which can be counter sunk with no mushrooming.

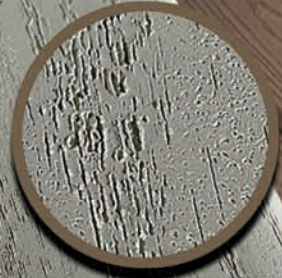

Matching 1/2" fascia is also available in 12" widths for trimming out your new deck.

VEKAdeck™ PRO's superior formulation prevents moisture absorption which is ideal for marine applications.

NEW! Satin Finish & Deeper Traction Grip
Slip Resistant Impressed Grain For Traction and an Authentic Wood Look

"Hard Coat" Impact Shell
Co-Extrusion
Hard Coated Outer Cap Made with Formulast™ Technology for Superior Weather Resistance and Prevents Water Penetration.
